

Nanotech

Detection & Remediation Lab

Sheraton Dallas Hotel
May 28-30 By appointment only

Text or Call. 970-494-1972

Scan for More Information

Examples

Hydragel parasitic artifacts in vaccinated blood.

Detection and reduction of magnetism unvaccinated individual.

Parasitic Feeding mechanism of hydra-artifact in unvaccinated blood.

Particulate artifact creation by hydra organism as a factory.

Detection

Live Blood Survey for nanotechnology

- Parasitic Ribbon & Particulate factories
- Ribbon Artifacts
- Hydro-gel observations

Magnetic/Paramagnetic Testing

- Test Your Body for unnatural magnetism
- Learn to test your food for magnetic toxins

Bluetooth / MAC Address testing.

Identify MAC addresses in a person from vaccine & PCR tests.

Remediation

Reduce or eliminate nanotech artifacts from your blood ribbon & particles
Improve RBC status and reduce injury from environmental EMF
Reduce parasite / factory artifacts reduced in about 2 weeks

Methods to detoxify paramagnetic & magnetic toxins to reduce vulnerability.

None known yet. Experimental methods.
